Special discount for BERA associates

The Future of Postgraduate Education Conference 2015 will examine the Government’s latest strategies for securing a leading, sustainable system postgraduate education in the UK. Through a combination of leading presentations alongside discussion and debate, delegates will discuss the current and future funding changes to postgraduate education and gain insight into how to widen access to and enhance the quality of postgraduate education, using innovative ways to attract first-class postgraduates.

Key points of this Conference include:

- Funding the future of postgraduate education and learning
- Postgraduate education as “the new frontier of widening participation”
- Maintaining the delivery of outstanding postgraduate education going forward
- Anticipating and responding to challenges in the postgraduate education market in order to safeguard the reputation of UK higher education
- Widening access to and social mobility within postgraduate education
- Bringing together people and resources to research and share best practice in the delivery of postgraduate learning
- Successfully obtaining funding to increase access and participation in postgraduate learning
- Working in partnership to meet the needs of industry through business-responsive postgraduate courses
- Safeguarding standards and improving the quality of UK postgraduate
